Vintage Tours launches the 2026 season – with new routes and an expanded fleet

Kempton, January 7, 2026 – Vintage Tours is pleased to announce the launch of its new 2026 season. Once again, the company's program will focus on exclusive, guided classic car tours through some of Portugal's most beautiful and authentic regions.

The 2026 season will begin in the first half of the year with selected tours through the Alentejo. These will be followed by journeys through the world-renowned Douro Valley and the lush, green north of Portugal. In the second half of 2026, additional tours are planned in northern Portugal, the Douro Valley and the Alentejo. New for 2026, Vintage Tours will also introduce exclusive routes through the Center of Portugal, including visits to highlights such as the renowned Caramulo Automobile Museum, a landmark of Portuguese automotive culture.

Thanks to Portugal's favourable climatic conditions, Vintage Tours is able to offer its guided classic car tours from early March through mid-November – a period during which classic car experiences in many other European countries are often limited or not possible due to weather conditions. Mild temperatures, low rainfall and a high number of sunny days provide ideal conditions for relaxed and enjoyable touring in classic automobiles over almost three seasons.

Alongside the expansion of its tour program, Vintage Tours has also further developed its own fleet of MGA Roadsters. A new MGA Roadster in perfect condition will be added for the upcoming season, complementing the existing fleet and offering guests an exceptional driving experience at the highest level.

In line with its commitment to providing not only outstanding driving experiences but also first-class gastronomy and hospitality, Vintage Tours has further strengthened its partnerships with leading hotels and carefully selected properties in each region. The aim is to offer guests memorable experiences off the road as well, meeting the highest standards of quality and enjoyment.

Sustainability will remain a central pillar of Vintage Tours' philosophy in 2026. As in the 2025 season, the company will fully offset the CO₂ emissions of its vehicles. In cooperation with the non-profit organization myreforest, reforestation projects are supported – not only for Vintage Tours' own vehicles, but also for the cars of participants

who join the journeys with their own classic automobiles. For Vintage Tours, sustainability is not a buzzword, but a lived and practiced responsibility.

Since 2025, Vintage Tours has been a member of the regional tourism organizations Centro de Portugal and the Porto and North of Portugal Convention & Visitors Bureau. These memberships underline the company's ambition to develop high-quality travel experiences in harmony with the strategic goals of the regions. They also reflect a consistent commitment to quality, authenticity and sustainable tourism. Close cooperation with these regional organizations is a key factor in enabling Vintage Tours to present Portugal in a responsible, exclusive and deeply informed way.

"Our goal for 2026 is to continue offering our guests truly unique experiences – on the road, in hospitality, in gastronomy, and with a clear sense of responsibility toward the environment and the regions we travel through," says Matthias Haux, founder and owner of Vintage Tours. "Portugal offers an extraordinary diversity, which we bring to life with great passion, experience and attention to every detail."
